

Make it Rain!

An easy stem experiment from more2science.com.au that reflects the clouds and rain. With simple ingredients create a beautiful scene and use different colours to build different coloured storms.

Materials:

- Clear Jar
- Shaving Cream
- Food Colouring
- Water

Step 1

Gather the materials and fill jar $\frac{3}{4}$ full of water.

Step 2

Add shaving cream, and a few drops of food colouring

Step 3

Watch as the colouring come through the clouds and into the water
